“I absolutely love the assurance that we’re finally able to keep accurate records for our students in a timely fashion.”

– Jeanette H., Steward Elementary

**Go Electronic in your Lunch Room.** Speed up your lunch line. Use barcodes to quickly scan student lunch purchases.

**Communicate Lunch Counts.** Take lunch counts in class and share it electronically with cafeteria personnel. No paper to handle.

**Track Student Lunch Accounts.** Maintain a lunch balance for each student. Withdraw funds as students buy lunch. Add deposits into accounts.

**Collect Lunch Fees from Parents.** Automatically generate letters or emails to parents with low or negative balances. Parents view students’ accounts online and “self-manage” balances, reducing staff time spent on collections.

**What’s “HOT” and What’s NOT.** Quickly analyze the popularity of menu items based on daily sales.

**Generate State Reimbursement Reports.** Assign lunch programs to students for automated tracking of free/reduced lunches.

**Web-based Service.** Accessible anywhere via the Internet. No software installation or hardware purchase required. Reliable, secure, and always available.

**Parents view food purchases online.** Allows parents to monitor their children’s food choices and promote healthy eating.

**Integrated with SchoolInsight Student Management System.** Use separately or together with other SchoolInsight modules. Easily update student and parent information.
